

NOMINEE BIO

(Must be typed. Minimum 250 word count)

I started out in the insurance industry almost 5 years ago, in Sundre, at Westland Insurance. During my first 3 years working at Westland, I completed my level 1 and level 2 General Insurance License and was promoted to Team Lead of Personal Lines. After leaving Westland, I have ended up at Hub International where I have continued my education in the insurance industry by working towards my CIP designation.

I am currently working on my 9th course of the program with the hopes of finishing my CIP in December of 2025. Upon completion of my CIP, I intend to pursue my ACIP and FCIP designation as I believe the more knowledge one has the better. Additionally, one of my most recent and proud accomplishment since joining Hub, was being promoted to join the personal line's sales team at HUB at the beginning of January.

Alongside my educational and career pursuits, I am on the Social Committee and the Health and Safety Committee at HUB. Social Committee is responsible for planning activities in the office for our staff, and this includes staff appreciation day and the Christmas party. The Health and Safety Committee is responsible for keeping things around the office safe, such as monitoring business occupation hazards and building cleanliness.

Outside of my professional life at Hub, I participate as an Ambassador for Career Connections through the Insurance Institute, as I hope to get more people interested in a career in insurance. From personal experience, I don't believe it is a career choice talked about enough, nor appreciated appropriately. When I'm not at work I enjoy spending time with my 7 nieces and nephews, attending anything that is nerdy such as comic con (yes, I'm that person that goes all out and dresses up), traveling, and trying new things. Most excitably, I'm looking forward to participating in the Mud Run in August.
